

Ethanol for **Food & Flavours**

...150 years of competence

BEVERAGE ALCOHOL forms the basis for many applications in the food industry. It has a range of uses and is sure to impress with its neutrality and purity. **FOOD MANUFACTURERS** rely on the multitude of characteristics of ethanol: it is added directly as an **INGREDIENT**, **PRESERVATIVE** or **SEPARATING AGENT**; as well indirectly as a **CLEANING AGENT** or **DISINFECTANT** for manufacturing and/or packaging. Additives such as naturally occurring denaturing agents (such as **LACTIC ACID**) further broadens the range of features ethanol has to offer. Customers in the **FLAVOUR INDUSTRY** use neutral ethanol to produce **EXTRACTS** from fruits and plants. Thanks to its characteristics, ethanol generates the natural flavours and aromas in raw ingredients. Moreover ethanol is used as an **INGREDIENT** in flavours or pastes to improve the product.

Take advantage of our broad portfolio for food and flavors industry!

We are happy to assist you.

DISCLAIMER OF REPRESENTATIONS AND WARRANTIES; LIMITATION OF LIABILITY

L. Brüggemann GmbH & Co. K.G., BrüggemannChemical U.S., Inc., BrüggemannChemical Asia Ltd. and their affiliated companies (collectively, the “Brüggemann Group”) make no representations or warranties of merchantability or of fitness for any particular purpose or use, and make no other express or implied representations or warranties with respect to the Brüggemann Group products described herein, including, but not limited to, any information provided by any company of the Brüggemann Group, whether orally or in writing, as to the chemical and physical characteristics of such products.

The information contained herein – and any other related information provided, orally or in writing, by any company of the Brüggemann Group is provided to the best of the Brüggemann Group’s knowledge. The information contained herein is of a general nature and is for informational purposes only. Product specifications must in each case be expressly agreed upon in writing or may be provided by the respective company of the Brüggemann Group in a separate document which must be expressly related to a particular purchase order. Each buyer or user is responsible for conducting its own tests to determine the chemical and physical characteristics of a Brüggemann Group product or its suitability for an intended purpose or use.

In no event shall any company of the Brüggemann Group be liable to any buyer or user of the Brüggemann Group products for any loss or damages, direct or indirect, of any kind or nature (including general, special, incidental, consequential, liquidated, or punitive damages or any damages calculated by reference to loss of anticipated revenues or profits, or loss of use of products, costs of replacement products, or additional expenses incurred in the use of products), or for any other damages to the property or person of any buyer or user, in each case which may arise as a result of the use or application of the Brüggemann Group products described herein or the information provided by any company of the Brüggemann Group, negligently or otherwise, or the infringement of any patent, trademark or other intellectual property rights.

Each buyer and user of a Brüggemann Group product shall obtain and review the applicable material safety information before handling any of the Brüggemann Group products.

All of the provisions of the General Terms and Conditions of Sale and Delivery of any company of the Brüggemann Group, as amended from time to time, including, but not limited to, those relating to the extent and limitations of the liability of the respective company of the Brüggemann Group, will apply to all sales of the Brüggemann Group products and are incorporated by reference herein.
